Fall Attorney Faces Inquiry; Many Angles of Tampering Charges Develop

WASHINGTON, Nov. 3. (A)—The government set about today to bridge the gaps in the trail of evidence

the gaps in the trail of evidence touching the activities of Burns detectives in shadowing jurors in the Fall-Sinclair oil conspiracy trial, as the grand jury investigation went follower.

Seeking evidence to directly connect Harry F. Sinclair and A. Mason Day, to whom it is charged the Burns operatives reported, district attorneys obtained the statement of one witness that he was employed by day to drive the wealthy oil operator about Washington during the trial and that Day paid him \$371 only last night for his services.

Another surprise element to the whole proceeding was furnished when Mark B. Thompson of New Mexico, one of Albert B. Fall's attorneys, was sent before the grand

paying \$6017.44, leaving a balance of \$6184.69, for which judgment was affirmed today.

The company, in its appeal, asserted that 50 per cent of its gasoline contained kerosene and that kerosene was exempt from taxation by provisions of the Motor Vehicle Act. The company also asserted that the Motor Vehicle Act invalid because it was not enacted in the precise language in which it was introduced.

The appellant further charged that: Section 17 of the act invalidates the entire act because it states that the set should not go into effect until September 30, 1923, subsequent to the date when legislative acts ordinarily become affective under the terms of the Political Code and State constitution providing, further, that it should not go into effect unless the California Motor Vehicle Act of 1923 should be adopted before September 30, 1923.

ALL POINTS OVERBULED

This constitutes an attempt by the Legislature to transfer to others the responsibility of deciding what legislation is expedient and proper, the appellant declared, and, further, that the Los Angeles court had no jurisdiction and that the case should have been tried in Sacramento country, where the law was passed.

The State court overruled all these points.

Intrastate Matters Put Up to Local Officials

WASHINGTON, Nov. 3. (P)-In re fusing today to alter the level of milk and cream rates charged in ex-press and railroad service throughout Rocky Mountain and Pacific Coast territory, the Interstate Comion laid down a prece-

the Sterling Refining Company of Los Angeles.

The refining company had sought exemption of approximately one-half of a motor-vehicle tax, \$12,202.13, asserted by the State to be due it on a quantity of motor-vehicle fuel manufactured by the defendant.

PLAINTIFF FAVORED

The Los Angeles Superior Court decision favored the plaintiff and the oil refining company appealed after paying \$601.746, leaving a balance of \$6184.89, for which judgment was affirmed today.

### Japan Budget Estimates Cut

TOKIO, Nov. 3. (P)—Cwing to the difficulty of finding sufficient revenue to cover proposed hew enterprises, the Department of Finance has slashed \$9.500,000 yen (roughly 229,780,000) from the estimates drawn up by the other departments.

The figures, which will be submitted to the Cabinet temorrow, total 1.717,000,000 yen (888,500,000), showing a decrease of 12,000,000 yen (88,000,000) from the present budget.

The navy estimates now are 273,000,000 yen (818,500,000) and the army 220,000,000 yen and 8,000,000 yen, respectively.

The present revisions are only tentative and may be increased before the budget is approved as the various departments are insistent that the appropriations be granted according to their estimates. TOKIO, Nov. 3. (P)-Owing to the

Interest in Blue Grass State Contest Grips Capital

Effect of Outcome to be Felt in Presidential Fight

Jockey Club Sway Cause of Bitter Election Struggle

BY ROBERT B. ARMSTRONG

"Times" Staff Correspondent andidates are obscured in the politi-

SNAG FOR DEMOCRAT

Even with his election, Beckham
will run into a snag, because of the
Jockey Club assertion that it already
has the assured support of twentytwo out of the thirty-six members of
the Senate. A repeal bill passed the
lower house in the last legislative session but was defeated in the Senate.
Where the Governor has a whiphand, though, is in appointment of a
racing commission which controls the
sport by setting track dates, approving jockeys, establishing purses and
regulating the size of the "takeout" from the gambling money.
This threat causes the Jockey Club
to assert that it will pull out of Kentucky and shut down its tracks if the
people select Beckham. The Republi-

Downs."

Derby Day has been run at ChurchIll Downs for fifty-three consecutive
years now, and the thought of its removal to Illinois is counted upon by
Republicans to attract Kentucky

Reproduces votes.

This threat is peoh-pooled by the Democrats. To take the Kentucky Derby to Chicago would be like trying to put the label on Chicago moonshine and expect it to be old Kentucky Bourbon, they tell the Republicans.

REFORM ISSUE DENIED

BEFORM ISSUE DENIED

But both sides want the world to know that there ian't a reform issue involved. Kentucky has "open" Sundays, it killed in jig time an antievolution bill and is reputed to be liberal in other lines. Trouble grows out of the political control said to be exercised by the Jockey Club, through a use of its wealth.

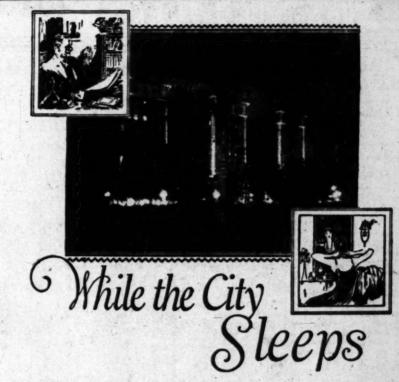

The club supposedly earns between \$1,500,000 and \$2,000,000 a year through the pari-mutuel system and operation of tracks. The claim is that it spent about \$500,000 in the primary election this year, backing favorable candidates.

"It is not the horse-breeding industry that caused all this trouble in the politics of Kentucky—but rather those who are getting a big rake-off from the take-out on pari-mutuel gambling machines and a few high-hat millionaires from New York, Chicago and Florida who have come to Kentucky to set up the greatest gambling institution in all the world."

That is the statement of Robert H. Lucas, collector of internal revenue for the district, and a Republican candidate for Governor in the primary who was defeated.

WEALTHY LUMBERMAN. THOMAS FRIANT, DIES

SAN FRANCISCO. Nov. 3. (A)-SAN FRANCISCO. Nov. 3. (#)—
Death of Thomas Priant, 87 years of age, wealthy California lumberman, was announced by Stewart Edward White, novelist, whose father was for fifty years Friant's business partner. Friant was born in Grand Rapids, Mich., and he and White were among the first Michigan lumbermen to realize that forests of Michigan and Wisconsin would eventually be exhausted. They began buying California timber in the 80's, against the judgment of their competitors, acquiring large tracts of sugar pine in Madera county, and later timber in Merced county, near Yosemite National Park Death occurred Sunday.

# You May Want Access to Precious Possessions

IT IS not always convenient to visit your safe deposit box during normal business hours. You may wish to examine important papers; you may receive documents or money after banking hours that you should not keep in your home or your office until the next day—or your wife may wish to lock up jeweled ornaments on the way.

It is for these reasons and many others that hundreds of people keep their valuables in the vaults of the American Safe Deposit Company, where they are accessible all day every day of the year and all night every night of the year. These vaults never close. They are the only vaults in Los Angeles offering continuous day and night service.

When you place your precious possessions in the vaults of the American Safe Deposit Company you have taken every precaution for their safety. These vaults are the largest in the West-and the safest in the world. They are

Box Rentals, \$4 per Year and Up

bandit-proof, fire-proof, water-proof and earth-

Safe Deposit Vaults and have access to it at all hours. Box rentals range from \$4 to \$200 per year, depending upon size and equipment.

Inspect these vaults and learn at first hand why they offer you-Maximum Safety, Maximum Convenience, Maximum Accessibility.

# AVOIDING SMASH

SAN DIEGO, Nov. 3.—One death

at police hesdquarters over night. Joe W. Smith, 67 years of age, having died at the County Hospital early this morning as the result of an accident at Sixth and University.

Smith, police reports indicate, was knocked down by an auto driven by W. E. Poindexter, 542 Second street. Poindexter reported that he swerved his auto to avoid another car at the "death trap" intersection, inadvertently striking Smith, when he did so. Smith was taken to the County Hospital in the police ambulance, and expired at 2 o'clock this morning, nine hours after the accident. His body was taken to the Merkley undertaking establishment, where an inquest will be held. Smith lived at 3803 Sixth street.

SENATOR SMOOT SETS

John P. McLaughlin, Collector of Internal Revenue.

The amount was collected by the government September 4, 1923, in the form of an 8 per cent tax on oil transported by the company through its pipe lines between April 1, 1919 and December 31, 1921. The appeal is based on the ground that the company received no pay whatever for such transportation, that all the oil it handled belonged to its corporate stockholders, and that its operating expenses were paid by them. The companies owning the plaintiff are the Southern Pacific, Associated Oil Company.

The pipe-line company further contends that there is no basis established for the computation of the tax, and that the money in question was paid under protest. TAKES ISSUE WITH MELLON

CONGRESS PASSES

tiement.

TAKES ISSUE WITH MELLON

As for the means of reducing the rederal taxes, the veteran Senate finance chairman did take issue with Mr. Melion. Although he did not apecify in what regard, it is understood he would repeal the automotion of the remaining wartime excise taxes which the Treasury would retain.

"It is possible," he said significantly, "that a reduction of \$300.000,000 may prove justifiable by the time the tax bill reaches the Senate. He defended vigorously, however, the estimates on which Secretary Melion figured a surplus of only \$274,000,000 for 1929 and warned tiffat many of the pending demands for special appropriations might even which the basis of the budget and does not take into account additional appropriations which Congress may deem advisable in the coming session. Possibly the Secretary's estimate is extra "conservative; it would not demonstrate sound business judgment if it were otherwise."

Beffending the Tariff Act, Senator Defending the Tariff Act, Senator in the comming term and the propagation of the committee and advised for capital met losses, the committee said. Also, it said "to eliminate the tax on capital transactions would shift the tax burden from those taking gains to those taking losses."

The proposal to release a tax lien on the giving of a bond is a new taggestion, but the committee argued that "if the taxpayer has no other resources from which to pay the tax; the lien may tend to deter quick collection."

Charles D. Hamel is chairman of the advisory committee which also includes Dr. T. S. Adams, A. Ballantine, George E. Holmes, George O. May and Dr. Thomas Walker Page.

GEORGE KELLY GETS

SLUGGERS HOOK OBSERVATIONS FRANKLIN AND ROMANS CLASH ROMANS CLASH Planned for

L. A. High Eleven Favored to Nab Today's Battle

Poly and Manual Squads in Annual Grudge Tilt W HEN L. A. High and Franklin scramble on the gridiron this afternoon they will not only be fighting for

Hollywood Doped to Wallop Jefferson Democrats

they will not only be fighting for the honor of remaining in the race for the city football championship, but ilkewise will be arguing over the right to perform in the Coliseum Tranksgiving Bay, Occidental and Hawaii are to play the Turkey day date and the prep game which seems destined to decide the city prep championship will be played as a preliminary. The two possible games are the historic L. A. Poly scramble and the Hollywood-Franklin affair. Should be a repetition of the L. A.-Poly, Oxy-Hawaii double-breder which drew over 60,000 fans to the bowl several years ago. Should Franklin with the Flim City aggregation in the preliminary and that ought to draw a crowd as well.

From every standpoint of logic a person who considers the game to be played in the Coliseum tomorrow featuring Pomona and U.C.L.A. must be convinced that the Sagehem would be lucky to finish second. The Bruins are certainly bigger, they are generally regarded as better, and there are a whole log more of them. What's more, they are fighting for a cause. They feel that they would be disgraced to graduate from the Southern California Conference without ever having won the football championship. Belleve us, they want to win. The Bruins are certainly bigger, they are gameling for a cause. They feel that they would be disgraced to graduate from the Southern California Conference without ever having won the football team pionship. Belleve us, they want to win. The one thing you can expect from Pomona teams have been scruppers for many years and will have to be licked—they won't give up

There is a whole lot more than meets the eye in the encounter at whither between the Quakers and San. Diego State. A year ago we made, a guess that the next school to rise up and eventually outgrow the Southern California Conference who are specified. The of the other conference schools except U.C.L.A. and the San Diego State. It is already bigger in enrollment than any of the other conference schools except u.C.L.A. and the San Diego that the many first the past Two hard-fought games and a walkaway loom for City League grid fans in the fourth-round struggles scheduled for this afternoon. Frank-lin and Los Angeles High, two of the three unbeaten elevens, clash on the Kitsdyers' gridiron in what figures to be the feature battle of the day, but the Poly-Manual Arts game, which takes place on the Tollers' field, promises to take away a lot of the play because of the ancient rivalry between the two squads.

In the third tilt of the afternoon Coach Vic Kelley's Hollywood Foothillers, who are heavy favorates to cop the championshiphook up with the thrice-thumped Jefferson Democrats on Fulton Field. Unless all the Supe docen't mean a thing, the Foothillers out to win easily, despite the fact that the Democrats held the Romans to a 7-to-0 score last priday. BY BOB BAY

trip for the band. After all, a
university is an institution of
learning, not of joy-riding possibilities. It is necessary for the
football team to make the trip
to Chicago, but the team can get
along without the band in a
pinch. And if the team should
win the game that will be advertising aplenty. Nobody will remember whether the band went
or not.

I note by the news stories that
Dave Barry, who was the referee
in the famous "Chicage count"
battle between Tunney and
Dempsey, was the third man in
the ring when Mickey Walker
knocked out Mike McTigue in a
Windy City ring the other night.
And it seems that Dave came
in for a Jolly razsing. When he
first appeared on the scens of
action to referee one of the preliminary bouts, the crowd swung
into a "slow count" which went
to fourteen, and between each
round this count was repeated.
This is the number of seconds
that Dempsey supporters insist
Tunney remained on the floor in
the much-discussed seventh
round at Soldier Field. SUITA OVER the local circuit, were sollows:

JAYSEE CONTESTS

ORANGE LEAGUE

BANTA ANA, Nov. S. (Exclusive)-

ecided in the Orange County Ath-

There isn't a real thriller in the

layout as none of the undefeated leaders—Fullerton, Anahelm and Orange-get together, but satisfactory football should be produced at Anahelm, Excelsior and lires, the locale for the three settless.

and Huntington Beach being the next three opponents.

Anaheim is still a highly rated contender for the county bunting and figures to keep its escutcheon unblemished by taking the measure of "Tubby" Wieman's Chilipeppers, but Garden Grove has been an annoyingly strong defensive foe for all of the big guns this year and might possibly provide a sensational upset.

as was the case last week, not a single

# SAMOHI, WOODROW WILSON IN CRUCIAL BAY LOOP CONTESTS;

Samohl, holding three straight wins in their hands, is now leading the league, as Wilson was held to a scoreless tie by Redondo. These two squads meet on the 18th Inst. at Wilson. However, both will have their work cut out for them this afternoon. Inglewood, although beaten by Huntington Fark and Compton, may prove strong enough to spill the ancient and royal dope bucket; while Pedro showed a strong team in bowing to Samohl last week. Samohl and Wilson should win.

In Lambert Monrovia has one of the best quarierbacks in the league, barring none. He ran rings around Covina's ends until he was knocked unconscious and had to be curried off the field, and last Friday against Downey he ripped off ten and fifteen yards every time he carried the ball. Adams is planning on him making a good showing against Citrus.

SATURDAY'S GAMES

paratory league football teams turn into that November stretch this week and only the strong of heart will sur-vive those last few gruelling steps to the champloophin terms.

vive those last few gruelling steps to the championship tape.

One of the league's undefeated elevens will fall, barring a tie, of course, when the Pasadena Buildogs and the Alhambra Moors come to grips at Alhambra. Pasadena has won three straight games, humbling Whittier, South Pasadena and San Diego, while Alhambra holds decisions over San Diego and Whittier and a scoreless tie with Long Beach. Pasadena should be the favorite off its record, but competent critics say the Moors, coached by George Hobbs, last year's counsellor at Anaheim, will win.

Pasadena's strength lies in its

# /A MOTOR OIL WITH BEYOND BELIEF

An entirely New Motor Oil!

A new product . . . made by a new refining process ... new in color ... NEW IN PERFORMANCE!

# Proved:

In gruelling tests equal to the driving of an automobile up a stiff grade 750 miles long, at 45 miles an hour, without stopping.

THAT was one of the laboratory tests given the new Cycol motor oil. A motor, lubricated with Cycol, was run steadily for 16 hours, under a heavy load, with water supply cut down, erank-case 40 degrees hotter than normal, with manifold and exhaust pipe cherry red with heat, and no oil added during the run.

When the motor was taken down, not only were all parts, including the rings and cylinders, well covered with a clean "live" oily film, but remaining oil in the crank case was practically unchanged from the original.

The new Cycol provides your motor with a double margin of security-a motor oil that meets the demands of hard, fast driving. Not only does this oil completely fill the lubrication requirements of present day motors, but also meets the new need for a motor oil suitable for high compression engines.

The new Cycol is made by a process entirely new to motor-oil refining. No acid of any kind is used in any step of its manufacture.

Fill today with the new improved Cycol. Note its clear, green-gold color.

# OIL STOCKS

AGAIN LEAD
PRICE RISE

Calpet Features Advance
With Gain of 2 3-8 Points;
Banks Also Stronger

Oil stocks continued to show strength on the Los Angeles Stock Exchange yesterday, and under the leadership of California Petroleum advanced to new high levels on the current movement. Calpet moved up 2 7-8 points to a high at 25 and closed 2 3-8 points net higher at 45 3-4. Associates also added 3-4 of a point to 22 1-8 and Shell added 1-4 of a point to 23 1-8 and Shell added 1-4 of a point to 23 2-8 Doints is to she season for including the season for including the point of the season for including the point of the path of improvement, if predictions are true.

LIKELY MEDIUM
As the stock market stands now, the cils are virtually the only group that has not been fully exploited. Other stocks are tired. Surplus money must find employment some place, and the oils appear to have the first call, it would seem. Given any encouragement at all, it is quite likely that this group will absorb a formidable quota of speculative and will have very little competition, and will have very little competition, from other groups of stocks unless conditions change.

Statistically, the necessary encourted opinion goes further, and states that the seminols pool, now running below 400,000 barrels daily. Well informed opinion goes further, and states that the rate of production will drop much lower in the next few months, which will remove the most serious obstacle in the path of improvement, if predictions are true.

From a dispassionate point of a view, however, something more than the Seminole news is necessary to justify a sustained upward swing in the prices of oil stocks. Too frequently in the past the oil market has taken on a cheerful tone on the assumption that the production situation has been cleared up, only to have another field open up, followed by a series of price reductions, and general retrechment.

ADVERSE FACTORS higher at 45 3-4. Associates also added 3-4 of a point to 44 7-8. Rich-field was up 3-8 of a point to 22 1-8 and Shell added 1-4 of a point to

### OCTOBER RAW SILK **DELIVERIES DROP**

NEW YORK, Nov. 3. (A) Deliveries NEW YORK, Nov. 3. (P)—Deliveries of raw silk to American mills during October approximated 47,827 bales as compared with 80,107 in September and 47,768 in October, 1926, the Silk Association of America reported today. October imports were 51,207 bales as compared with 52,478 in September and 48,403 in October, 1926. Stocks on November 1 totaled 62,366 bales against 58,986 on October 1 and 35,094 bales on November 1, 1926.

LAMONT CONCLUDES SURVEY OF ORIENT

Thomas Lamont, member of the firm of J. P. Morgan & Co., of New York, arrived here today aboard the steamship President Pierce, completing a tour of the Orient for the purpose of studying financial conditions there. Accompanying Lamont were Martin Egan, a member of the firm, and Jeremiah Smith, Jr., a Boston attorney,

# COAST RE-ENTERS OIL LIST BANK NOTES

Real Basis May be Absent; Rumors Active

aside from this doubt, the influences at work in the stock market may conceivably bring about a spirited period of apeculation in the oil shares without strict regard to the fundamentals in the industry itself. Such a situation cannot continue long without proper support from a changing statistical position, but it may serve the purpose of the traders, if the advance should go far enough.

ADVERSE FACTORS

This is not the season for increases in gasoline sales. Not until next spring will gasoline revenue begin to pick up, and then there is always the threat that competition for gallonage will force price-cutting wars.

Competition in the marketing of gasoline and in the drilling of oil lands is still a thorn in the side of the petroleum industry. The infustry may finally work out legislation in the next Congress that will remedy the latter trouble, but the first continues to remain as an ominous cloud in the path of the oil business. Speculators, however, are not greatly troubled as a rule over bothersome statistics. The word is out that the oils are due for a move, and that is sufficient. Rumors are actively fit circulation, as usual, by way of explanation. The Standard Oil Company of California was reported yesterday to have plans under way for, either the payment of a 10 per cent stock dividend, or the offering of new shares to stockholders at \$50. Concerning the sharp gain in California Petroleum, it was explained that President Jacques Vinmont has been called east to consider another consolidation proposition.

# Watch for These High Lights That Bring Out the True Investment Picture

1. CREDIT Analysis discloses important considerations which, if intelligently applied, largely determine security values. Thus, in judging the credit of an organization, while the assets are quite easily figured, there are certain more or less intangible qualifications, such as efficient management and a strong, steady market for the product, that are equally as important. And often only close analysis brings the true picture to light.

2. PURCHASING Then there is the variability of the purchasing power of money which influences investment value. See what can happen: A 3½% bond sells at 109 in 1902. In 1920, when commodity prices had advanced until the dollar had a purchasing power of 37 cents as compared with 1902, the bond had dropped to 62, a loss of about 43%. Therefore, with a decline in both purchasing power and market price, the real value to the investor, in 1920 was 57% of 37% or 21.09% of the original value of the bond. Watch purchasing power!

3. PROGRESS Changing fashions, customs and methods and new discoveries and developments effect industries and thus influence security values. Often times a little obscure item in the newspaper heralds seven-leagued strides in the progress of some industry. Trends should be watched, progress noted.

4. MARKET The rise and decline of investment markets and invest-4. MARKET The rise and decline of investment markets and investment yields present yet another factor in evaluating securities. There is sometimes a temptation for an investor to wait until the market has reached a peak yield. Usually the loss of income in the meantime will offset his higher earnings. There is an axiom among wise investors to the effect that the time to invest one's funds to best advantage is when they are available. And these same wise investors select securities with an eye to these four important factors—Credit, Purchasing Power, Progress and Market.

111-THE MEANING OF SUPERPOWER

elutu Com. 011. 37.00

In every discussion of the electric light and power industry considerable mention is made of superpower. So many great things have been credited to this phase of electrical development that in many minds the word is associated with the mysterious about it. Superpower is merely the name given to interconnections allow only the most effecting enerating and distribution stations whereby energy is produced, transmitted and distributed with a minimum of capital investment, and a maximum of operating economy. It makes use of existing plants and by interconnections achieves better and cheaper service over wide areas.

Assume two power plants several miles apart, each serving different communities. In each of these stations of these communities for current at one time, since, generally speaking, electricity cannot be stored. Purther, each of these stations must have regarve generators for times of trouble.

In every discussion of the electric light and power industry considerable many produced by high-voltage transmission lines. The result is superpower. Since these stations centerating equipments. I nalack times characterized every descriptions about it. Superpower is merelent generators a saving in operating of the superpower and the stream flow. In low or flood-water power plant may produce insufficient power. By hooking up the water-power plant may produce insufficient power. By hooking up the water-power plant is producing at a maximum. When water power is low the steam plant makes up the decidency. It should be evident that the economies effected by the superpower. It makes used to the superpower of the points of power supply with those of power demand, work also to the advantage of the investor in those properties.

In a produced, transmitted and distributions of the points of power supply with the superpower and characteristics. The power demand of these communities for the points of power demand, work also to the power of the power of the points of power demand, work also to the advantage of the investor in th

### Republic of Poland Stabilization Loan, 1927

POLAND BANKS as one of the leading nations in Europe in agricultural pursuits. It also possesses immense natural resources, especially timber, coal and oil, and is the second largest producer of zinc ore in the world.

THE POLISH GOVERNMENT, in collaboration with the Bank of Poland and competent international experts, has established a comprehensive monetary, budgetary and administrative plan for ensuring a stable gold currency. It is one of the few countries in Europe that has worked out a practical stabilization plan.

worked out a practical stabilization plan.

THE BONDS are the direct obligation of the Republic. As specific security the Government has assigned to the Fiscal Agents of the Loan its gross customs revenues. For the past three years the customs revenues have averaged over five times the maximum annual service requirements of the loan. During the first five months of the present year, the customs receipts amounted to over 170% of budget estimates.

# Mortgage Bank of Colombia

Twenty-Year 61/2% Sinking Fund Gold Bonds of 1927

Interest Payable April 1 and October 1

A cumulative sinking fund beginning April 1, 1928, operating semi-annually, is calculated to retire the entire issue by maturity through purchases in the open market below par or drawings at par. Redeemable (otherwise than through the sinking fund) as a whole or in part on any interest payment date at 102% and accrued interest on or before October 1, 1932; thereafter the premium decreasing ½% per annum to and including October 1, 1936, and redeemable after that date at the principal amount of the bonds and accrued interest.

Coupon bonds in denominations of \$1,000 and \$500, registerable as to principal only.

Principal and interest payable in New York City at the principal office of the Trustee in gold coin of the United States of America of or equal to the standard of weight and fineness existing on October 1, 1927, without deduction for any taxes, present or future, levied or imposed by the Republic of Colombia or by any taxing authority therein or thereof.

International Acceptance Securities & Trust Company, Trustee

Corles A. Davila, Manager and Director of the Martgage Rank of Colombia ing the business of the Bank and this issue of bonds:

Business The Mortgage Bank of Colombia (Banco Hipotecario de Colombia) is the oldest banking institution in Colombia engaged primarily in mortgage credit operations. In accordance with the provisions of the Colombian mortgage bank law, its charter took the form of a contract between the national government and the Bank. By the terms of this contract the Bank possesses, in addition to general banking powers, exceptional powers and privileges to operate as a mortgage bank. Located in Bogota, its operations extend throughout the Republic of Colombia and consist primarily in granting long-term loans secured by first mortgages on improved city and agricultural property and in making secured loans to governmental entities. All mortgage loans of the Bank are, and have been since its foundation, payable in

Security

These bonds are the direct obligations of the Mortgage Bank of Colombia. All mortgage loans of the Bank, by express provision of the Colombian mortgage bank law, constitute specific security for its outstanding mortgage bonds. The amount of such bonds outstanding is limited by law to an amount not exceeding mortgage loans in force. Mortgage loans, by the terms of the Trust Agreement, may not be made in excess of 50% of the appraised valuation of mortgaged property except that, with the approval of two-thirds of the board of directors of the Bank, loans may be made up to 60% of such valuation. As a matter of established policy, the Bank usually limits its mortgage loans to less than 50% of the appraised valuation of the mortgaged property. New mortgage loans granted during the first nine months of 1927

The mortgage bonds of the Bank are secured by at least an equal amount of mortgage loans, which, as of October 31, 1927, in turn were secured by first mortgages on properties having a total appraised value in excess of three times the par value of the bonds. In addition, as the bonds are the direct obligations of the Bank, they are further secured by their proportionate share of the capital, surplus and undivided profits of the Bank, amounting, as of the same date, to approximately \$3,000,000.

Purpose
The proceeds of this loan, under the terms of the Trust Agreement, are to be used to retire outstanding mortgage bonds of higher coupon rate, to reimburse the Bank for mortgage loans already made but against which mortgage bonds have not as yet been issued, and to effect additional mortgage loans.

All conversions to U. S. dollars made at par of exchange, 2.9733 per Colombian dollar. Present quotation Colombian dollar 2.9733,

We offer these Bonds when, as and if issued and received by us and subject to the approval of all legal proceedings by our counsel, Messrs. Hornblower, Miller & Garrison, New York City, and by Dr. Emilio Ferrero, Bogota, as to all matters of Colombian law.

It is expected that temporary bonds or interim receipts will be deliverable in the first instance.

Price 911/2 and accrued interest, to yield over 7.31%

WIFE CHARGES KIDNAPING

Woman Tells Police Husband Kept Her Prisoner at Point of Gun and Beat Her

Kidnaped by her husband at the point of a gun and kept a prisoner in his sister's house, Mrs. Viola Leatham, 245 East Twenty-seventh street, escaped yesterday and found refuge in the house of a neighbor, according to a complaint which she swore out for the arrest of her husband, Harry R. Leathar Mrs. Leatham declared that on Mrs. L

Husband Testifies Defendant Wife's Love in His Absence

A. B. McNutt, whom he accuses of stealing the love of Mrs. Eva Hall, valued at \$25,000 in his complaint, went to trial yestray before Judge Reuben Schmidt in the Superior Court.

Hall charges that McNuts discharges that

MARKET FLASHES

Enormous Profits to be Realized from Oil Leases when

You are in LUCK Lease Brings \$3,000,000

TAKERS Half Paid in Cash, Half in Oil, for Pecos County Land.

SAN ANGELO, Texas, Oct. 23 (AP)—Edwin Rea Cosby of Ok-lahoma City Saturday purchased from H. P. Nichols, Dr. Emil Ott San Angelo their lease on stry acres in Exercises

Open Your Mind to the Sunlight of Truth

A few months ago this 60 acre lease which now sold three million dollars could have been bought for 2300.

WAS THEN A WILD CAT! All great producing oil fine around such wild cats. The men who speculated in leas around such wild cat wells as turned out to be gualars, aways get the big profits. There is not another speculation ways get the big profits are the profits of the average man that carries such transfous profit possibilities as does oil leases and oil roys speculations, ahead of production.

You may be one to Profit if you take a chance

But the author's defense served primarily only to heighten the controversy. He had no right, it was dectared, to destroy people's faith in George Washington. He might be able to disprove the tradition that washington could not tell a lie, but as a good citizen with a mind to the faith of succeeding generations in the virtues of their national heroes he should refrain from destroying the cherry-tree tradition, and if he were not that kind of a good citizen he should be restrained by some sort of law. THE ALEXANDRIA FLORIST Good Flora: Designs at Popular Prices. HOTEL ALEXANDRIA VA 6001.

of thing are to be found in t o books published within the past year. One of them is a novel, purporting to be the inside story of a certain administration. It does not mention the President or his close associates by their real names, but there is little question of identities in the minds of well-informed people who read it. The story it tells is not of the kind that Americans have been accustomed to read about their Presidents and Cabinet officials.

elegance.
But the author's defense served

AMAZING STORY But the other book is something again. It is a frank, detail acital of a young woman's assert relations with a President. In a few instances identities are concealed under avowedly fletitious names, but for the most part gives real names and discusses what are asserted to have been actual happenings.

Friends of the President involved easy it is a story that should never have been told, least of all printed, that its publication serves no useful purpose, and that it never would have been published if its victim were alive and able to defend or to exonerate himself.

our avidity. But a considerable umber of people who are not sention monigers think and are saying iat something ought to be done prevent the publishing of books that kind. Hence the talk to a effect that Congress will be rejected to take action.

EDUCATION OUACKERY SCORED IN ADDRESS

PITTSBURGH, Nov. S. (A)-"Qui ery in education" was condemned today by John D. Beatty, secretary of
the bureau of recommendations of
the Carnegie Institute of Technolnegy in an address at the annual meeting of the American Association of
Urban Universities. At the same time
Beatty declared colleges have been
"slackers" to permit business men
"to snap up a good thing in correspondence courses and exploit the
field with all kinds of quackery."

OMAHA PRIESTS MEET BODY OF ARCHBISHOP

OMAHA, Nov. 3. (P)—Several priests and about fifty of the Catholic laity met the train bearing the body of Archbishop J. J. Harty, bishop of Omaha, from Los Angeles here today. Father Clement Molony, a Los Angeles rector, with whom the archbishop spent the last fifteen months of his life, accompanied the body. The funeral will be conducted tomorrow.

Paving Project

Blocked Again in

Southeast Area

Councilmen Alber, Shaw and Hall at yesterday's session of the City Council blocked an attempt to start proceedings for the paving of seventy-five city blocks of territory in the southeast part of the city, basing their opposition on the fact that the City Engineer's cheek showed only 22 per cent of the record owners of the property on the streets to be assessed petitioned for the paving. This is the same paving job which the Public Works Committee unsuccessfully tried to put through the Council ten days ago.

Councilmen Alber said he opposes starting any improvement; proceedings in the absence of majority petitions asking for it. The district involved is in the vicinity of Central avenue from One Hundred and Ninth street.

Islowers on the job.

BOYCOTT THREATENED

lyse construction of the \$4,000,000 Goodrich Rubber Company plant be-ing erected here was perpetrated yesterday by union agents, it was learned last night. Some fifty or more carpenters who

belong to the union have been work-ing peacefully on the Goodrich Job with carpenters who do not belong to the union. Union agents openly threatened that they would not permit this open-shop plan to continue and that the company must either discharge the fonunion men or a strike would be ordered.

The company did not discharge the nonunion men and yesterday union agents would not give union carpen ters permission to return to their work. Some of the union carpenters disregarded the agents' orders and places of the strikers readily were

serted.

Now, it is learned, the union agents are attempting to get union brick-layers to quit work on the job in a sympathetic strike. The bricklayers all are union men and have no grievance against the company. They are understood to be disinclined to put themselves out of a job and orders from high bricklayer union officials in the East may be necessary to force them to strike. Union leaders are in negotiation over this and a difference of opinion is said to exist. UNIONISTS BUSY

Famed Plane Builder, Here, Says Several Long-Distance Flight Projected for Spring Months

Several long-distance flights to be made next spring will be sponsored by Anthony H. G. Pokker, noted airplane designer and manufacturer, it was disclosed for the first time here yesterday. The announcement came from Mr. Pokker himself in connection with a statement that he will give Bernt Balchen, one of his test pilots, a leave of absence if the latter decides to act as pilot for Mrs. Florence Wilson Grayson in her proposed trans-Atlantic derivation, when asked about telegraphic advices to the effect that Balchen has consented to pilot Mrs. Grayson's plane, Dawn, if he is permitted to take it on a test flight and receives a leave of absence from Mr. Pokker, the famous sirplane manufacturer replied that he will not stand in Balchen's way.

"But," he said, "I do not believe that be will not stand in Balchen, will not stand in Balchen, will not stand in Balchen will." But, "But," he said, "I do not believe that be will not stand in Balchen, will not be attempted unto it will not

# TWO-MILLION CITY VISIONED

Willis Owen Predicts 1932 Los Angeles Population in Junior Chamber Luncheon Talk

Los Angeles will have a population of 2,025,000 by 1932, in the opinion of Willis Owen, former adviser to the late E. H. Harriman and now a resident of this city, who was the principal speaker at a luncheon-meeting of the Junior Chamber of Commerce in the music room of the Biltmore yesterday. Various members of the City Council were guests of honor.

Mr. Owens, a widely known author—whows less about its growth than any ity on matters of municipal and national progress, delivered an address on Los Angeles. The principal theme of his talk was the progress of Los Angeles in the last few years and predicted that it will reach a population of 2,025,000 by 1932, based on surveys made by the Bureau of Power and Light.

Everett Grubb, president of the Junior Chamber of Commerce, president of the city in the resident of the Speakers in behalf of the Philharmonic Orchestra were introduced and made short talks on the start of the famed musical organization and the lines. Tet, frankly, I believe It plans for the ensuing season.

Calaghan a month ago and were told that the man at the other end of the wire had found the machine in the middle of an old road in the desert with two mummified bodies in its front seat and three in the rear. His wife forced him to heave before he had been able to thoroughly examine the awful sight, he said, and he was reporting it at the first opportunity.

Besides the Sheriff and his deputies, a number of others cought the clusive machine, but none were able to find any sign of it. Sheriff Shay's report ends the matter as he was positive in his statement that the whole thing must be the figment of a too-vivid imagination.

Congressman's

Widow Expires

Mrs. Henry E. Osborne, 78 years of age, widow of the California Representative who died in 1923, died yesterday at the Good Samaritan Hospital of heart disease following an III-ness of several years.

Mrs. Ceborne, who was born in Perrysville, N. T., came to California with her husband in 1879 and had been a readent of Los Angeles since 1883. Formerly an officer and an active worker in the Women's Relief Corps, as well as active in Methodist Church work, she was forced by her falling health to retire from this work several years ago.

She leaves four soms, Henry Z., Raymond, Clarence and Sherill Caborne, and one daughter, Mrs. Gamusi S. Stahl, all of Los Angeles. The body is at Bressee Brothers' mortuary, Functial arrangements have not yet been made.

Mrs. Emma H. Corper liked to live in hotels and spread tips among the servants, according to the complaint for divorce filed yesterday by Michael H. Corper, Los Angeles theatrical producer. Corper complains that his wife squandered his money in satisfaction of extravagant tastes. As she did not care for housekeeping, she insisted on living in a hotal, he relates. Because of her habit of bestowing "exorbitant tips" on anyone who would perform the slightest service for her. Corper says, this manner of life was unsupportably expensive. Furthermore, he charges, when he would give her money with which to pay bills she would spend it with bootleggers.

The couple married in Riverside, May 5, 1925, and separated last month, the complaint recites. VERNON SCHOOL HELD

WIFE'S TIPS

The vaudeville acts, including the Adagio Seatter from Fanchon & Marco's "Tassels Idea" and a feature preview will be presented tonight as part of an intertainment program offered under the auspices of Al Malaithan Temple at the Shrine Auditorium.

Deputy Superintendent Monlux yesterday answered the charge that the west Vernon school is unsafe by saying it can be vacated in from sixty to minety seconds; that fire drills are south Dakotans to meet this evening it can be vacated in from sixty to minety seconds; that fire drills are given regularly and that this building in Veterans' Hall, 246 South Hill ing is in much better condition than many of the other old frame structures now in use.

# SHIFTS MADE IN TRIO RELEASED NAVY COMMAND Widow of Film Cowboy to be Capt. Pettengill Assigned to U.S.S. Tennessee

Reversal of Manslaughter Capt. Stone Transferred to Washington

Many Think State Will Drop Admiral Wiley Raises Flag Next Tuesday

Coming as an aftermath to the reversal of the manslaughter conviction obtained in connection with the shooting of Tom Kerrick, film cowboy, three of the five defendants in the case yesterday were released on their own recognisance by Judge Hardy pending further disposition of the case on December 2.

Those released are Iris Burns, Joe Hunt and Henry Isabell. They had been in the County Jail for several months pending hearing of their appeal, which was disposed of by the Appellate Court by reversing the judgment of manslaughter. Anits Davis, also one of the defendants, was given her liberty on ball shortly after she was convicted, her atterneys arguing her health would be jeopardissed by continued confinement.

The fifth defendant likes Bark.

# IN-LAWS BERATED IN BALM SUIT

Court Hears Story of \$15-a-Week Man's Struggle to Get Along in Life.With Million-Dollar Baby, \$100,000 Wife and Latter's Disappointed Parents

The story of the busy day of a "\$15 man" with a \$100,000 wife on his hands after the family had been increased by a million-dollar baby, was told yesterday in Judge Fleming's department of the Superior Court, during the hearing of Harry Lyons's suit against his parents-inlaw, Joseph and Fanny Auerbach, whom he charges with alienating the affections of his wife, Anne Auerbach Lyons.

Lyons would rise at 5:30 am., he testified under examination by his attorney, Don Marlin. He would prepare breakfast for Mrs. Auerbach, herve it to her in her bed, hustle up a little food for himself and dash off downtown to work. On his return in the evening he would brew himself a cup of coffee, do the housework and then settle down to a little light laundering in behalf of the baby.

He was held to this schedule.

Court, during the hearing of Harry Lyons's suit against his parents-in-law, Joseph and Fanny Auerbach, whom he charges with alienating the affections of his wife, Anne Auerbach Lyons.

Lyons would rise at 5:30 a.m., he testified under examination by his attorney. Don Marlin. He would prepare breakfast for Mrs. Auerbach, serve it to her in her bed, hustle up a little food for himself and dash off downtown to work. On his return in the evening he would brew himself a cup of coffee, do the housework and then settle down to a little light laundering in behalf of the baby.

He was held to this schedule,

# LAKENANS' IN INCOME TAX BATTLE TO

Individual Payments Total More Than \$51,000,000

Collections Show Increase in Last Fiscal Year The four-year court battle between

California Also High as

Securities Market

Although ranking seventh in population, California ranks fourth in the amount of individual income taxes collected, according to a statement issued yesterday by Galen H. Welich, Collector of the Internal Revenue Bureau, following the receipt of an official report from Washington, A total of \$51,400,718.84 was collected in individual income taxes, equal to \$11.90 for every man, woman and child in the State.

The total internal revenue collections made in California during the last fiscal year were \$138,488,418.25. The total during the previous fiscal year were \$138,488,418.25. The total during the previous fiscal year were \$138,688,418.25. That California is rapidly coming to the front as one of the greatest taxes \$128,484 the previous of the greatest to the front as one of the greatest three \$128,484 the previous of the greatest to the front as one of the greatest three \$128,484 the previous of the greatest the front as one of the greatest three \$128,484 the previous during the previous fiscal year was \$135,000,000, or more than 3 per cent.

ANOTHER HIGH MARK

That California is rapidly coming to the front as one of the greatest securities markets in the world is also shown in the report. The State ranks third in the issue of capital stock and bonds of indebtedness. During the year, 81,548,792,100 worth of such securities were issued. California is fifth among the States in the transfer of stock certificates. During the past year, certificates of stock valued at \$228,330,500 were sold. This does not include the original issue.

Other interesting facts disclosed by the tax-collection report of Mr. Welch, and

are:
California ranks fourth in taxes
collected on admissions to places of
amusement, where the admission
charged is 75 cents or more. Total
tax collected was \$1,387,746.30. This
means that Californians apent \$13,\$77,463 for theater tickets costing
more than 75 cents each. Tickets sold
costing less than that amount probably totaled another \$13,000,000, according to Mr. Welch. MAKES CIGARETTES

California is fifth in the manufac-ture of cigarettes. Although far from the tobacco growing centers of the nuited States, 3,443,190,520 cigarettes were manufactured within the

Thousands Get Lobster Meal

Prematurely The problem of "where do lobsters come from" was solved in special on fashion yesterday at the point on Truck Boulevard where Compton

to the sait water of the Pacific Ocean via Compton Creek and the Los Angeles River, both flooded by the recent rains. Fish experts explain that in the brackish waters of Domingues Slough thousands of crawfash breed every year and these eventually find their way into the Pacific—there to increase greatly in size and become "lobsters" for coast cafes.

The crustaceans which were gathered in by the sackful resterday along Compton Creek ranged from four to ten inches in length.

BARNES ENTERS PROTEST

Truck Boulevard where Compton Creek crosses the highway. Interally thousands of motorists who passed the spot were busy from dawn to dark yesterday gathering from the roadside their quota of lobsters—or rather, crawfish—which fairly choked the creek-bed.

Investigation disclosed that the strange piligrimage of the crawfish hordes had started in Dominguez Slough and that they were an toute

THE TIMES-MIRROR COMPANY No TARIFF WAR N Prospects of a tariff war with France, which faded rapidly when French statesmen began to understand that the United States

was very likely to get the better of such a struggle, are considered practically at an end with the acceptance of a basis on which a temporary agreement can be reached. There is still room for considerable contro versy, it appears, on the French demand for time in which to make an investigation of American manufacturing before concluding a permanent commercial treaty, the United States making no objection to the investiga-

tion but desiring the treaty first.

The French position may be taken in perfect good faith, but on the face of it it seems to be a scheme for postponing a permanent treaty indefinitely. A commission investi-gating American manufacturing obviously could readily consume severa' years in the work and several more compiling its reports and in the meantime American exporters would be kept in a state of uncertainty that would be bad for business.

Under the temporary agreement, it is un erstood no details have been made public the status quo would be maintained, both France and America retaining duties as they were before the recent advance in the French schedule, the United States making some minor concessions affecting administrative methods but not affecting rates.

There has been a sharp conflict between French and American tariff theories in the course of the negotiations, and some misunderstanding by the public of these differ-ences. Free trade Democratic papers have been chortling prematurely over the situa-tion, seeing in it a justified retaliation by France against a country having higher tariff duties than her own. They also have assumed that the United States is defenseless against such tactics. This is not, how-

It is true that on the international index scale the American tariff stands at approximately thirty-seven while that of France is they are the right sort they are likely to prove both uplifting and comforting.

about twenty-one. But these figures fail to take into account the relative purchasing power of the populations of the two countries. This is so much higher here that a tariff rate which would prohibit imports into France of any particular commodity, would check them only mildly if applied to this country. Since 1922, when the present tariff shouldering his personal financial burdens. The commissionports to Europe have inc. eased less than 11 ployed for raising the money.

per cent. Obviously the American tariff Do you believe in fairles? rates are comparatively lower than those of Europe when the f ctor of purchasing power is considered, and much lower than those of France, which has a high index compared with European countries.

has power under the Fordney-McCumber bill to raise rates by 50 per cent and even to prohibit imports from any country that discriminates against American goods. The free traders have overlooked this wise pro-vision in their discussion, but the French have had it called to their attention.

On paper, the balance of trade appears to be against France by the difference between \$263,800,000 and \$152,000,000. However, \$198,000,000 of our exports to France is raw materials which the French manufacturers must have and upon which they make a profit; and American tourists spend \$225, 000,000 to \$250,000,000 a year in France, which is the equivalent of the export of a corresponding amount of French goods, so that in reality the balance is favorable to France. This furnishes an additional reason why the French will not seek a tariff

The United States, therefore, will not have to abandon any tariff fundamentals or enter into any reciprocity scheme. She has plenty of trading material without that.

THE VACANT CELL
In San Quentin prison, apparently, a "to let" sign has been posted over a tenantless cell that should be affording safe and song quarters for an ingenious criminal who was lucky in escaping the gallows. Herbert Wilson, who started his promising career by disgracing the title of "reverend" and concluded it by killing an accomplice in a sen-sational escape from the Los Angeles Coun-ty Jail, may never return to California be-cause Joe Bertsche has pleaded guilty in the mail robbery case at which the Califor-

nia convict was to have been a witness. To the lay mind the intricacies of the criminal law are difficult to fathom. But a clever criminal evidently knows how to take advantage of them. A long string of crimes seem to be safer for the law breaker than isolated felony. Then he may be convicted on a minor count and so escape the more serious charge.

Herbert Wilson has no doubt discovered by this time that the way of the transgressor is hard. But he realizes that it can be rendered softer if sufficiently complicated. Thus by pleading guilty to robbery he can substitute a time sentence in the Federal Every man an officer is not a new sensa-prison at Atlanta for life-leng incarceration tion in the West. The ploneers used to in a California State penitentiary on the charge of murder.

So long as this amiable robber, jail-breaker and killer can no more set foot on the soil of California the taxpayers of the State need not worry over being spared the expense of boarding so undesirable a guest or grudge the Federal government the honors thrust upon it. But justice may well shed a tear to think that in meting out the rewards of crime a lesser offense may take precedence over a greater one. The somewhat bert Wilson is to have the road to Gehenna

This code has long been in favor among the underworld denizens of Chicago, where accompanied by proper political patronage it has been found to work wonders. It is more dangerous to the welfare of the Windy City than King George's snoot, but raises no

Bill Thompson,

PUBLIC VICTORY A When the City Council fixed a uniform inspection fee of \$20 a year for all meat markets, the people of Los Angeles won another victory over unfair tactics of union labor allied with some employers who ap-parently were trying to destroy competition. The union scheme would have provided a prohibitively high fee for markets desiring to keep open after 6:30 p.m. and on holidays and Sundays, with the object of forcing them to close, and would have deprived many housewives of the small neighborhood markets which are a decided convenience, if not a necessity.

This was to be accomplished in the guise of a health measure, despite the obvious ab surdity of the theory that meat can be noxious because it is sold at a particular brough a somewhat careless City Council which would not have passed a straight out and out after-hour, holiday and Sunday closing law. But when the union joker was pointed out the Council suspended the ordinance until its fangs could be drawn. According to Health Commissioner Parrish. the joker was inserted after the ordinance

was drawn by his office and over his protest Even as it stands, the ordinance is some fee for all markets, regardless of size. the discrimination is not serious.

Main Street Asks Special Clean-up Detail

Deputy Chief Says Vice Squad Has Job in Hand

Business Men Aver Indecent

itinue their performances despite numerous rearrests by police, members of the Downtown Business Men's Association yesterday appealed to Chief of Police Davis to establish a permanent detail of officers in the contested territory to enforce city ordinances. The request was made in a letter sent to the Chief by William F. Peters, secretary of the organization.

REQUEST DENIED

The request was denied by Chief Davis, who immediately turned the matter over to Deputy Chief Jackson. The latter, in declining to order the establishment of such a permanent detail, said that, in view of the results accomplished by the vice division in enforcing the city ordinances. Despite the repeated arrests made by over department the relief desired by the legitimate business interests on Main street, such an action by the police is unnecessary.

"The enforcing of these ordinances comes under the supervision of the vice division commander," Chief Jackson stated, "and the records show that within the last week he has had a detail of men doing all that it can to prevent the infraction of those ordinances and to protect the rights of the merchanis."

# **ELICITED IN POWER SUIT**

Bureau Accountant Says Funds Cannot be Traced Due to Intermingling

An admission from the Power and Light Bureau's witness, Clyde Errett, not be traced to each particular item handled, was obtained by Attorneys alifornia Edison Company in Supe

or Judge Tappaan's court yesterday. This testimony supports the contention of the Southern California Edison Company that the bureau is violating city charter provisions by the intermingling of the funds, as charged in the company's suit for a permanent injunction to prevent the bureau constructing a \$3,230,000

reau is without proper funds to do so.

Errett, testifying for the defendant, told of the transfer of \$4,000,000 of the 1924 and 1926 bond funds into the power revenue fund, explaining that out of \$8,000,000 spent by the bureau for replacements and new work, the \$4,000,000 was included.

It was brought out that the bureau's system was to place in the revenue fund anoney from power bonds, to replace revenues which had been spent on work for which the bonds were voted.

The practice, usual in the handling of a private enterprise, is held by the plaintiff to be strictly illegal in that it naingles the funds in a manner which prevents the taxpayer from knowing for what the bond funds and the revenue funds were spent.

Counsel for both sides went into the situation exhaustively, the complication of figures mentioned at times even mixing up the attorneys and the court, until straightened out by further questioning.

### Thanksgiving Fete Planned for 233 Club

advance this year by the 233 Club with a dinner and dance at the Masonic Temple, Hollywood, on the evesonic Temple, Hellywood, on the evening of the 1½th inst. It will be limited to members and their families, and the surplus derived will go to swell the Christmas fund.

The following were appointed a committee to visit members who are ill at their homes or in hospital: Roy L. Hollis, P. M. Pitts, Lon Poff, James Meu, Charles Seeley, Lee King, Bert Spencer, C. McMurtrie, J. Bastleman, J. Watkins and A. Fessler.

CASTLE OPENS TODAY

CASTLE OPENS TODAY

The formal opening today of Eads
Castle in La Brea avenue just north
of Beverly Boulevard, marks a wortiny addition to the present list of
foremost cares in Hollywood.

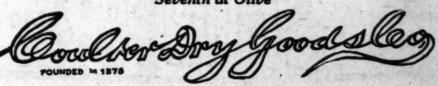

The Castle, an attractive structure
of Spanish type of architecture, was
erected at a cost, including furnishings, of \$100,000. The many uniqueand original features incorporated in
its construction single it, out as a
radical departure from the orthodox
type of cafe housing.

Mr. and Mrs. E. C Bads are the
proprietors of this new establishment
which will be under the management
of L. G. Sprague. They all were formerly associated with the case business in Kansas City for a number of
years and bring to the Castle a varied
background of valuable experience.
Mrs. Eads will set in the capacity of
hostess, a position for which she is
particularly adapted, it is stated.

Barbecued sandwiches of all kinds
and special eastern beefsteaks will be
featured. The cafe will be open all
night and undoubtedly will find favor
among after-theater patrons. Ample
parking facilities are available close
to its doors, an advantage which partity influenced Mr. Eads in choosing

McCormick Line Reports 50 Per Cent Upturn

Usually Dull Season Equals Midsummer Peak

ncrease Attributed to Cut Passenger Fares

Passenger travel between Los An-peles and San Francisco and Port-and has shown a 80 per cent in-trease on McCormick liners over the

Three asserted rum-runners are reported either off Southern California waters or nearing such goal from distant points, each bearing several thousand cases of contraband liquor to replenish local stores for the Thankegiving and Christmas rush. At least one craft each from Canda, Central America and the Atlantic are expected, but their identity is being closely guarded by officials of Base No. 17, of the United States Coast Guard, operating out of Los Angeles Harbor.

Another craft, a motorship, is reported en route here from Canada, and plans are to keep her under surveillance, although her mission has not been revealed, and it is declared possible she is on a legitimate trade renture.

The steamer M. F. Sterling, which was unreported since the fourth day following her departure for Facific ports from Guracao, October 2, is asfe in port at Cartagena, according to word received by Mrs. Charles A. Watts of San Francisco, wife of the skipper. Boiler trouble forced the ship into the southern port.

Dislocation of the shoulder of Dr. E. Robert Burnight, local boarding cofficer for the United States Public Health Service, has caused a temporary paralysis of his arm, recovery from which is expected to be a tedious affair. He is back on duty, but unable to use the member. The accident occurred when he slipped on the boarding launch a month ago.

Halperins Join Inspiration

An important affiliation of film interests was made yesterday when it became known that Victory Pictures, of which the Halperin Brothers are the heads, have combined with Inspiration Pictures to make a series of big productions, the first to be started the latter part of next month. Edward Halperin returned from New York yesterday. Victor Halperin has been here for several weeks, and has been quietly negotiating the plans with J. Boyce Smith of Inspiration. At this writing, the name of the first production is not ready for apnouncement, but will be within a few days.

Brenda Pictures Changes Title "The Port of Missing Girls" has been substituted for "White Lights" as the permanent title of the initial production of

Galvio is said to be one of France's greatest actors. Years before he went in the mark the water of the Peris stage, and the star of the Theater Dauton, and has never visited the United States, but is said to be seriously consideration of this region several years.

# Film and Stage Folk Approve

# Play Salesgirl Four Big Roles

assistance of Certrude Astor, screen actrees.

Miss Astor, according to announcement from the theater, will personally sell the scrip books at a specially constructed booth Monday evening. She will also make a personal appearance on the Boulevard stage that night in connection with "The Irresistible Loyer," in which she plays a prominent part. This picture begins a week's run Friday, following "Alias the Descon," the current attraction starring Jean Hersholt.

### CHAPLIN EXPERTS ARE REUNITED BY MENJOU

opens today at the Rialto.

Bo that the true Parisian atmosphere might be transformed to the screen authentically for Adolphe Menjou, Jean De Limur, a native Parisian, was assigned to the technical direction. H. D'Abbadie D'Arrast directed.

By a coincidence, Limur was also technical director for Charles Chaplin when the comedian made "A Womon of Paris," which first brought recognition to Menjou. D'Arrast worked on the same film.

Phil Breseth, organist of the Bialto, has prepared a special musical score to accompany the picture, "A Gentleman of Paris."

BY ISABEL MORSE JONES

### "SMILIN' THROUGH" IS LOVELY WHIMSY

Ostman players at their theater on Figueros street.

The charm and whimsical loveliness of that pretty play of June nights and rose gardens was captured in fair measure by the Ostman players, although "here were times when the emoting of the players waxed too high in pitch for naturalness. It would seem as if a trifle more restraint and poise upon the part of the cast almost as a whole would have helped in the smoothness of the performance.

As is the custom with the Ostman-produced plays, the cast varies from night to night. At the initial performance, on Wednesday evening. Genelle Bagley was seen in the role of Moonyeen Clare and last night Doris Bemp carried the part. Atmong the members of the cast on the two evenings were Corrine Templin, Jeannette Strotthoff, filimsheth Wilson, William Penwick, Ralph Matson, Dorrance French Actor

Fall to Player

Jean Mann, the striking brunette who plays Doris Lennox, the ingenue role in "Meet the Wife." now showing at the Hollywood Play House, is doing the fourth professional play.

Graduating two years ago from the American Academy of Dramatic Art it New York City, she became a member of the cast of "The Foot Nut" in that city two days after finishing scnool. She played for over a year in that production, doing the leading feminine role for six months. Her next engagement was in a leading role of "The Little Spitfire" in Chicago. During the latter part of the engagement, she player the title role.

Miss Mann then came to Califor-

wednesday night with a benefit performance.

FINDING GUILTY ONE

IS PLAYGOERS' TASK

Was the guilty man really found? This question among theatergoers in the lobby of the Morosco Thater after "The Night Cap" is over."

"Guy Bolton and Max Marcin, authors of the mystery play, have given to Los Angeles theatergoers one of the most stirring and thrilling mysteries that has ever been presented in this city," says James Durkin, director of the most stirring and thrilling mysteries that has ever been presented in this city," says James Durkin, director of the Morosco.

\*\*Accordance of the Morosco.\*\*

WIFE'S PART IN FORTUNE QUEST TOLD

Man Makes Concessions in Her Divorce Trial

Testimony that his wife, Mrs. Lillian Fraser, well-known welfare worker of Ocean Park, fed hogs, dug irrigation ditches, carried water from the ditch to the house and aided in other ways during their early married life on a ranch in Imperial Valley, back in 1909, was drawn from Earl Fraser, nillionaire beach concessionaire, in Superior Judge Montgomery's court yesterday, by Attorney Frances J. Heney, appearing for Mrs. Fraser in the opening of her divorce action. The defendant was called as the first witness for the plaintiff. The romance begun in 1906 in Sydney, Australia, while attempting a trip around the world. The marriage followed and they came to California.

husband in building up his present fortune.

The Imperial Valley ranch later was sole for \$17,000, and Praser began to take charge of his father's bathhouse at Ocean Park. Later he was given money by his father to purchase stock in various beach concessions and in 1914 his father, eight years before his death, divided large beach interests into thirds, one each for his mother, his sister and himself.

STUDENTS WILL DANCE

Costumes and and dances of Bohemia will be duplicated Saturday night by students of the school of speech of the University of Southern California and their friends, when they stage a Bohemian hop at the Webb-Keedy studio, Hollywood, according to announcement of Miss Doris Johnson, president of the group.

MASONS TO HAVE PROGRAM

# COPPER TURNS TO HARBOR

United Verde Official Says Huge Arizona Tonnage Will Later Pass Through Los Angeles

cal shipping center for Arizona cop-per because of its geographic loca-tion and steamship lines on which in-tercoastal rates are lower than the railroad tariffs.

Negotiations are under way looking toward the shipment of all copper produced in Arisona through Los Angeles Harbor, according to Robert E. Tally, general manager of the United Verde Copper Company, who was a guest at the Biltmore yesterday.

And then to the eastern seaboard by steamer is the only thing that prevents the shipment of all of the Arrivations will be successfully culminated within a few years and the tonnage of the local port will be tremendously increased. He explained that Los Angeles Harbor is the logical shipping center for Arisons copper through the local ports, according to the visitor. He says leaders in the copper industry have suggested the inclusion of these clauses in the Los Angeles shipping contracts and have been met with a willingness to work out some arrangement. GET 25 PER CENT

tion and steamship lines on which intercoastal rates are lower than the railroad tariffs.

PRESENT METHODS

The negotiations, according to Mr. Tally, have to do with "refine in transit" clauses in shipping contracts. At the present time the railroads will permit such clauses only when the Arizona copper is shipped by rail to Galveston, from Galveston by steamer to eastern ports, where it is refined, and thence to the centers of distribution by rail again.

The lack of such "refine in transit' clauses in the coutracts for the shipment of copper to Los Angeles by rail local consumption of copper, it is his belief.

### LOST-FOUND

LOST, POUND, STRAYED-

Although the serious business of the convention does not get under way until today, four conferences were held in the committee rooms of the Roosevelt Hotel yesterday. These were the presidents, secretaries, trustees and general conference meetings, with a wide variety of subjects coming up for discussion.

Reports read at these meetings indicated that virtually every Kiwanis Club in the district is carrying out a program of permanent service to the underprivileged child. Special facilities in children's hospitals and summer camps for undernourished children are among the activities reported.

Last night the delegates attended a special entertainment at Hollywood High School st which International President Heinz was the principal speaker. International and district officers were introduced during the evening.

GRAND BALL TONIGHT

In addition to the session today the program calls for division banquets at 8:30 p.m., followed by the Governor's ball in the Hollywood Roof ballroom.

GRAND BALL TONIGHT

In addition to the session today the program calls for division banquets at 8:30 p.m., followed by the Governor's ball in the Hollywood Roof ballroom.

Think it is perhaps better that I do not talk too much about my business plans yet," she said yesterday. "Maybe I can tell you more next week, no?"

Miss Clay is typically Latin-American in appearance. A decided brunting the evening. "According to caupera men, "she pholographs like a million dollars." Governor's ball in the Hollywood Roof ballroom.
Following the Saturday-morning session, the district officers will be elected and the 1928 convention city selected. A drive for this honor already has been started, with bids from Sacramento and Monterey. During the evening the delegates will be guests at the Chinese Theater.
Arrangements have been made for the entertainment of the wives and other relatives of the delegates during the sessions of the convention.
The program this afternoon includes a complimentary tea for the wife of the district governor, Mrs. Wendell C. Thomas, followed by a fashion review and musicale at the Hollywood Woman's Club.

# Samuel Cohn, Pioneer in City Industry, Buried

Bresee Brothers' chapel for Samuel Cohn, 7I years of age, pioneer Los Angeles industrial developer, who died Tuesday from a sudden attack of heart disease. Mr. Cohn removed to Los Angeles from San Francisco forty years ago and resided here con-tinuously.

Always active in industrial development, Mr. Cohn found time for community activities and took a deep interest in public, philanthropic and civic matters.

He leaves his widow, Mrs Flora Cohn, and two daughter, Sadie and Stella. The family residence is 244% South Berendo street.

Interment was at the Cemetery of the Home of Peace. Rabbi Magnin officiated.

LODGE WORKER, DIES

# Per Cent of Population Contributing to Chest "A City with a Human Heart?"

# What All This Means to YOU

Average Subscription to Community Chest

Miserable indeed must be the man, who does not WANT to help those less fortunate than he. No words, no advertising no appeal can reach such a person. YOU—the average man and woman of Los Angeles—are not in that class.

What does this mean to YOU? OPPORTUNITIT! After endless effort and study, the chantable organizations of Los Angeles have made it possible for YOU to GIVE, with the knowledge that you have given wisely and well.

Your gift becomes a part of a great and beautiful COMMUNITY EFFORT. Divided into one hundred and fifty distinct and separate efforts, it is used to relieve ALL distress; to afford ALL protection to those who need protection; for ALL welfare work in the Community.

YOU can GIVE, and YOU can HELP. Meet the army of volunteer solicitors half way. Make sure, yourself, that your generous gift reaches the CHEST. Give in a generous spirit.

Apt. 14, 324 Golden ave. A PARTMENT HOUSES-FOR SALE-

A PROFITABLE HOTEL LEASI It is located within five min-utes' walk of the busiest section of the business district and is manent success. The vacant rocess fill up every day and invariably I am obliged to turn people away every night.

I have just recently re-decorated and re-furnished the entire building with the very best money can buy and since having done this I have been making a net profit of better than \$450 per month which is a 46% investment based on my selling price of \$12,000.

Into Detectives' Actions; Magnate's Aide Named formal complaint charging Harry F. Sinciair and one of his agents, nry Mason Day, with con to tamper with the jury which was hearing the criminal oil con-spiracy charge against the wealthy oil operator and Albert B. Fall was

vestigating activities of of the Burns agency in members of the trial jury. DAY EXCUSED

DAY EXCUSED

The complaint was sworn to by Neil Burkinshaw, assistant District Attorney in charge of the grand jury inquiry, immediately after Chief Justice McCoy of the District of Columbia District Court had ruled that Day could not be compelled to testily before the grand jury since he had taken the position that any evidence he would give might tend to incriminate him.

Day and his counsel, former Justice Wright of the District Court, accompanied Burkinshaw to the commissioner's office and were present while the complaint was prepared. Day surendered himself, waived a preliminary hearing and was liberated on \$25,000 bond-to await action of the grand jury.

While these stirring events were taking place in and around the District Court building, Albert R. Fall suffered a relapse in his apartment at the Mayflower Hobit and was ordered to bed by his physician, J. J. Kilroy, who mid the former Interior Secretary's physical condition is had an account of his previous ill-
